BELAY® INSECTICIDE

RICE

Belay® Insecticide—Superior Rice Water Weevil Control

Belay® Insecticide is a pre- or post-flood foliar spray for a broad spectrum of tough pests in rice, including the best and long-lasting protection against rice water weevil. *Belay* is more active on plant bugs, stink bugs, beetles and weevils, including rice water weevils, than other neonicotinoids, while offering comparable control of other important insects with sucking and chewing mouthparts.

- **Effective and Unique—**Controls rice water weevil and other rice pests such as leafhoppers, rice leaf miner and chinch bug; also suppresses thrips
- **Reliable—**proven effective under a variety of growing conditions
  - More flexible application window than other foliar insecticides, such as pyrethroids
  - Excellent translaminar activity
  - Contact and ingestion activity on key pest makes it a reliable tool year after year
  - Resistance management tool and excellent rotation partner due its different mode of action (Group 4A) than pyrethroids (Group 3)
- **Excellent for IPM—**softer on beneficial pest predators than pyrethroids, which makes *Belay* less likely to promote outbreaks of primary and secondary pests (plant hoppers, thrips)

Belay Stops Rice Water Weevil

Belay is the only translaminar insecticide in the market place for rice water weevil and consistently provides better control than a pyrethroid. And, with a wider application window, *Belay* allows growers more time to spray.

BELAY® INSECTICIDE

RICE

How To Use

Rate	4.5 fl oz/A
Timing	Pre- or post-flood
Method	Foliar spray. Apply in at least 10 gal/A by ground, 3 gal/A by air.
Adjuvant	No restrictions
REI	12 hours
PHI	Up to 3rd tiller

Other Important Information

- *Belay* is not for use in fields used for crawfish culture
- One application per season
- Compatible with adjuvants
- Seasonal maximum: Regardless of formulation or type of application (seed treatment, soil or foliar), do not apply more than 0.2 lb active ingredient of clothianidin per season. 4.5 fl oz of *Belay* contains 0.075 lb AI/application.
- Signal word: Caution
- Always prevent spray drift to non-target organisms
