BELAY® INSECTICIDE

VEGETABLES

Belay® Insecticide—For Foliar or Soil Use in Vegetables

Belay® Insecticide is a broad spectrum insecticide for hard-to-control pests in vegetables. This uniquely effective insecticide is known for control of aphids, stink bugs, beetles, soil pests and a broad spectrum of other chewing and sucking pests.

- **Broad Spectrum**—controls aphids, flea beetles, leafhoppers, stink bugs and more. Offers suppression of leafminers, thrips and whiteflies.
- **Reliable**—translaminar action quickly reaches pests where they feed for maximum yield protection. Systemic when applied to soil.
- **IPM Tool**—soil and foliar uses. Effective and softer on insect predators than older chemistries, such as organophosphates, synthetic pyrethroids and carbamates.

How To Use

CALIFORNIA ONLY: Refer to the Department of Pesticide Regulation's restrictions on neonicotinoid usage in vegetable crops (www.cdpr.ca.gov).

Application	Labeled Pests	Rate (fl oz/A)	PHI
Brassica (Cole) Leafy Vegetables			
Foliar	Aphids, bagrada bugs, flea beetles, harlequin bugs, leafhoppers, stink bugs, whiteflies*	3–4	7
Soil	Aphids, flea beetles, harlequin bugs, leafhoppers, leafminers*, thrips*, whiteflies*	9–12	21
	Root maggot (Delaware, Maryland, New Jersey, North Carolina, Pennsylvania and Virginia only)	12	21
Cucurbit Vegetables			
Foliar	Aphids, cucumber beetles, flea beetles, leafhoppers, squash bugs, stink bugs, whiteflies*	3–4	Do not make application after 4th true leaf on main stem is unfolded
Soil	Aphids, cucumber beetles, flea beetles, leafhoppers, leafminers*, thrips*, whiteflies*	9–12	21
Leafy Vegetables			
Foliar	Aphids, flea beetles, leafhoppers, whiteflies*	3–4	7
Soil	Aphids, flea beetles, leafhoppers, leafminers*, thrips*, trash bugs (including earwigs, crickets, ground beetles), whiteflies*	9–12	21

*Suppression only

How To Use continued

CALIFORNIA ONLY: Refer to the Department of Pesticide Regulation's restrictions on neonicotinoid usage in vegetable crops (www.cdpr.ca.gov).

Application	Labeled Pests	Rate (fl oz/A)	PHI
Tuberous and Corm Vegetables, including Potatoes and Sweet Potatoes			
Foliar	Aphids, Colorado potato beetles, flea beetles, leafhoppers	2–3	14
In-Furrow or Side Dress Application	Aphids, Colorado potato beetles, flea beetles, leafhoppers, sugarcane beetle	9–12	Apply at planting
	Potato psyllids*, sweetpotato weevil, white grubs (including exotic white grub)	12	Apply at planting
Seed-Piece	Aphids, Colorado potato beetles, flea beetles, leafhoppers, potato psyllids*, wireworms (seed-piece protection only)	0.4–0.6/ 100 lb seed	Apply to seed-piece

*Suppression only

Note: *Belay* is toxic to bees. Refer to label use information and environmental hazards prior to use.
