

Dual Mode of Action Seed Protection for Superior Pythium Protection

Introducing INTEGO® SUITE Cereals OF, an easy-to-use seed protection solution that offers wheat growers a new mode of action to manage Pythium. The superior formulation provides even seed coverage and performs in a wide range of temperatures.

INTEGO SUITE Cereals OF Offers:

- ▶ **Protection for the entire plant**—Dual mode of action creates a complete zone of defense above and below ground
- ▶ **Protection against Pythium species that metalaxyl alone cannot control**
- ▶ **User-friendly treatment**—Smooth flowability and low use rate ensures a consistent, even application and easy treatment experience

Pythium Damage and Management in Spring Wheat
